

§ 115C-542. Maintenance of inspection and engineering service; cancellation of insurance.

The State Board of Education is authorized and empowered to maintain an inspection and engineering service deemed by it appropriate and necessary to reduce the hazards of fire in public school buildings insured in the Fund as hereinbefore provided, and to expend for such purpose not in excess of ten percent (10%) of the annual premiums collected from the local school authorities. The State Board of Education is hereby authorized and empowered to cancel any insurance on any school property when, in its opinion, because of dilapidation and depreciation such property is no longer insurable. Before cancellation, the local board of education shall be given at least 30 days notice, and in the event said property can be restored to insurable condition, the State Board of Education may make such orders with respect to the continuance of such coverage as may be deemed proper: Provided, that the findings and results of the inspection of local school property by the agents of the Board shall be reported to local boards of education and to the board of county commissioners of such units as carry insurance with the State 30 days before budget-making time in order that all school property shall be properly taken care of and made safe from fire hazards.
